We have had a great year so far at Triad Math and Science Academy and we thank you for your support! We can hardly believe how quickly the end of the year is approaching. It is the time of year where we rely even more heavily on the help of our parents, relatives, community members, and friends.

As we prepare for the end of the school year, I am seeking volunteers to proctor during End of Grade Testing. There is no prior testing knowledge or experience needed to be a proctor. Testing will take place from May 31 through June 2. If you are willing to proctor for one or more days, please complete the bottom of this page and return it to your child’s teacher or to the front office. Every student that returns a form with someone willing to proctor will receive $20 in Tiger Bucks to use for the Tiger Store or Fun Day. Once the form has been returned, I will contact you to schedule proctor training at the school.

We look forward to hearing from you. If you have any questions, please do not hesitate to contact me at 336-763-2771 or asaeed@tmsacharter.org.

Sincerely,

Amani Saeed

Dean of Academics
